SPECIFICATIONS

Name KDE- 900 Wire Cutting Stripping Machine

NO. Specification

1 Wire cutting stripping machine

Model KDE-900 (Single tube)

Power supply AC 175-250V 50/60HZ, 400W

Tube diameter Max 8mm

Stripping length Head 0-50mm, tail 0-30mm, depends on actual wire.

Cutting length 0.1-99999.9mm

Capacity 0.1 - 6 sqmm

Efficiency 2000-4000pcs/H

Length error 0.002*Length (correctable)

Drive mode 4-roller drive

Control mode Touch screen

Size 420*300*350mm

Weight 32kg

Accessories: different sizes of tubes, inlet cable straightener, output sheet, wrenchs.

Feature

1)Automatic cutting stripping machine for electronic wire, silicone wire, Teflon wire, and sheathed cable.

2)Automatic cutting, complete stripping, half stripping, middle stripping, Front and rear stripping, Tri-section stripping.

3) Length control: Silent hybrid stepper motor 0.1mm per step.

4) Touch screen control, stripping length and wire diameter can be edited directly, more stable and fast.
