

K.D.ENGINEERS INDIA PVT. LTD.

Plot No. 56A , Gali No. 6 Krishna Colony Industrial Area,

Sector -25, Faridabad - 121004

Mobile/Whatsapp: 8447878472 , +91-9811109394

E MAIL ID: sales1@kdengineers.in, sales@kdengineers.in

TECHNICALSHEET

NO.	Specification
1	Wire cutting stripping machine
	Model
	KDE-745
	Power supply
	300W
	Voltage
	AC220V /11V 50/60HZ
	Air supply
	YES
	Wire outer diameter
	0.5 - 7mm(Recommend 6.5mm max.)
	Stripping depth set unit
	0.01 mm
	Stripping Length set unit
	0.01 mm
	Stripping length
	0-45 mm(Recommend 40mm max.)
	Stripping Method
	Tungsten steel V - Shaped blades 2pcs
	Maximum stripping layers
	4 Layers
	Net Weight
	14kg
	Size
	50*14*26 cm
	Functions
	Half-Stripping, Full Stripping, 2-layers stripping, cutting shorter

Feature

- 1)Automatic stripper for electronic wire, silicon wire, Teflon wire, glass fiber wire, isolation wire, etc.
- 2)Automatic cutting, complete stripping, half stripping, middle stripping, Front and rear stripping, Tri-section stripping.
- 3)At the same time processing two wires, greatly improve the output, can instantly transform the size of wire, easy operation. If twisting device is equipped, special functions of torsion can be realized.
- 4) The guide tube driven by a motor, which made the machine more stable and fast.
